

Please help yourself! These books are for free. Especially for your child and for you. Even young children enjoy books. Together with you, their Dad or Mum. Flipping through a book together, singing songs and telling stories while looking at the prints: that is fun. And this way your child learns new words and hears nice full sentences. That is all good for your child. We hope you will enjoy it!

**Want more books? You should certainly go to the library. Your child can join for free.**
